

Obstetrics/Gynaecology at SANITAS

Obstetrics and Gynaecology, most often abbreviated to OBS/GYN are the two fields of medicine that concentrate on the female reproductive system, in a pregnant and non-pregnant state.

At SANITAS our consultant Gynaecologists, advise patients on any aspect of women's health including:

- o Healthy contraception
- o Management of the menopause
- o Generic gynaecology
- o Problems associated with the female reproductive system.

In combination with our fertility specialists, and resident nutrition consultants SANITAS offers the most comprehensive support for women's health, providing:

- o Expert Gynaecological care
- o Pre and postnatal care,
- o Family planning and fertility consultations,
- o Lifestyle, diet and weight management plans and
- o Menopause management

All of these services and more are supported by the latest diagnostic equipment including:

- o X-ray,
- o Ultra-sounds
- o Fetal Doppler
- o A full suite of laboratory and testing services

As well as supporting specialists in:

- o Physiotherapy
- o Fertility
- o Paediatrics
- o Internal Medicine
- o Nutrition

See our website for more information on the full range of Obstetric or Gynaecological treatments available to you. Or call us to book your appointment today.
