

ORTHOPEDICS at SANITAS

*Orthopedics is one of the main branches of surgery, involved in the treatment of musculoskeletal disorders.
The musculoskeletal system includes the bones, ligaments, joints, tendons, muscles and nerves.*

The SANITAS Orthopedic unit is dedicated to providing superior out-patient and in-patient care in the field of orthopedic surgery and rehabilitation. Our specialists are highly qualified in a large range of Orthopedic conditions and surgeries. Special interests of our Orthopedic surgeons include but are not limited to:

- o Degenerative conditions of the hip and knee
- o Joint replacement surgery
- o Sports-related conditions
- o Arthroscopy of the knee, shoulder and hip
- o Orthopaedic trauma
- o All conditions of the spine
- o Low back and neck pain, fractures
- o Tumours of the spine
- o Spinal deformities
- o All conditions of the upper limb
- o Microsurgery, foot and ankle surgery.

See our website for more information on the full range of Orthopedic options available to you. Or call us to book your appointment today.
